ROLES, RESPONSIBILITIES
&
RELATIONSHIPS
(Between DAPS, DFAS, & DISA)

RELATIONSHIPS

- DFAS: makes transactions that produces various output products

- DFAS-FSA: creates & maintains the systems that the transactions are made on

- DISA: processes the transactions

- DAPS: outputs the various products

OPERATING ENVIRONMENT

- CONNECTIVITY
- CLEVELAND LOCATION
- DENVER LOCATION

CONNECTIVITY

DAPS is connected to the DISA Information Network.

The DAPS interface is via a channel extender driving laser printers and data terminals that utilize Job Entry Subsystem (JES) Consoles, and the System Display & Spool Facility (SDSF).

DAPS CLEVELAND

DAPS Cleveland is located in room B-31 of the A.J.C. Federal Office Building

Output products are distributed to various areas within the building

DAPS Cleveland produces Retired Pay products

DAPS DENVER

DAPS Denver is located at 631 Salida Way A-1, Aurora, CO 80011-7811

Output products are distributed to DFAS Denver
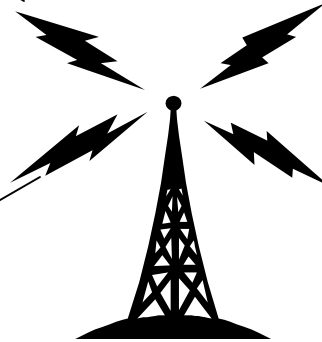

DAPS Denver produces Annuity products
